

# Doing Good Work

Don Martin began creating materials for Catechesis of the Good Shepherd when his wife was first setting up an atrium at their parish over twenty years ago. From its small beginnings, Don's work has expanded to a full-time business supplying materials for atria in the United States and abroad. He relishes the challenge of finding new ways to craft materials that are sturdy, cost-effective, and beautiful—all the while meeting the requirements outlined by CGSUSA. His works provide children a hands-on way to experience and learn about God and can be viewed at [www.TheCatechistsHusband.com](http://www.TheCatechistsHusband.com).
